SOLO MODE

SOLO MODE SETUP

- 1 Set up the apartment boards according to the rulebook, pg 2.
- 2 Take a Player Aid and a Spare Parts Card.
- 3 Shuffle the 4 Starting Assembly Cards into a deck. Draw 1 and place it on the left of your apartment. Place the remainder of the deck within reach.
- 4 Shuffle all remaining Assembly Cards and deal 6 faceup in a circle to form the Showroom. Place the rest in a pile next to the Showroom.
- 5 Remove 9 chairs  from the tile pool. Place 1 in each corner of your apartment and discard the remaining 5.
- 6 Put all remaining Furniture Tiles in the box lid. Draw and place 3 random tiles next to each card in the Showroom. Do not put any in the center.
- 7 Place the Decor Tokens within reach.
- 8 Shuffle the Arrangement Cards and reveal 5 faceup. Place the deck facedown next to the revealed cards.

RULES

Gameplay is the same as multiplayer, with the following changes:

- After taking any basic action, remove a card or a group of tiles of your choice from the Showroom (*center tiles cannot be removed*).
- On a turn when you cannot, or do not want to take a new arrangement card, you must discard 1 of the 5 revealed cards, or 1 from the top of the deck.
- At the start of each round, draw a new starting assembly card and place it to the left of your apartment.

ROUND END

Solo mode takes place over 4 rounds.

On a turn where you cannot take a basic action, remove a card, or remove a group of tiles from the Showroom, immediately set up for the next round, and complete the turn as normal. Any remaining furniture tiles from previous rounds stay in the center of the Showroom.

GAME END

The game ends in 1 of 2 ways:

- If it's the 4th round, and you cannot take a basic action, remove a card, or remove a group of tiles from the Showroom.
- If you are supposed to draw or discard an arrangement card, but there are none remaining, the game immediately ends.

SCORING

Scoring is the same as in multiplayer (*see rulebook, pg 8*).
Can you become a Master of Feng Shui?

<150 ♦ Consider an interior designer...

151 - 200 ♦ Functional, but millennial gray.

201 - 250 ♦ Mid century modern chic
